

Dear EEPG friends,

I am privileged to invite you to a conference/workshop focused on preparation and use of interactive materials in teaching at primary and secondary schools (pupils/students at the age of app. 5–18 years).

As it is the first event of such kind within the EEPG framework, as a first step we would like to map, with your kind assistance, the current situation in every member country to set conditions for the future meetings dedicated to this issue. The results we come to can also be used as one of the core EEPG materials to be used for negotiations with EU institutions.

We would like to adapt the programme of the event to the targets mentioned above. The conference/workshop will neither be focused on any specific school subject, nor on a specific level of the schooling system. It is going to be designated, less or more, to cater for managers of publishing houses, editors in chief, IT managers and others who are in charge of development strategies or responsible for long-term visions in the publishing houses.

On behalf of Fraus Publishing,

A handwritten signature in black ink, appearing to read 'Jaroslav Hervert', written in a cursive style.

Jaroslav Hervert  
Editor in Chief
